MESSRS. HUNT, DEVENISH, GRAESSER, AND FRIESMAN

New Masters Come To Lenox

MR. JAMES HUNT

Mr. Hunt, although familiar with the school and its football players, is one of the new additions to our faculty. He was born in St. Helena, California, (north of San Francisco), where he attended the University of California at Berkeley for three and one half years. After a period of two and one half years, he completed his studies in Theology at Berkshire Community College here in Lenox. At Berkeley and B.C.C., he played quarterback for the football team, and he now is a member of a touch football league which plays on Friday evenings.

When Mr. LaPointe learned of Mr. Hunt's abilities, he asked him to be a part time coach at the Prep. Mr. Hunt accepted and aided Coach LaPointe in an extremely successful season in 1966. Last year, he was offered a position on the faculty, which he also accepted. Mr. Hunt would like to see the school maintain its status quo, except for the basketball courts in the new sports center, which he feels should be completed as soon as possible. In his free time, Mr. Hunt enjoys playing basketball, as well as baseball and football, and watching athletic contests on tele-

Continued on Page 4, Col. 3

MR. PHILIP DEVENISH

Some new masters come to Lenox unmarried, some come after having been married for several years, but Mr. Devenish came to Lenox having been married for only one day.

Mr. Devenish and his lovely wife, Phoebe, came to Lenox, the honeymoon paradise of the Berkshires, the former to teach English after being abroad, studying Theology at Oxford University in England. He had previously graduated from Hamilton College.

His first impression of Lenox is somewhat that of surprise. Mr. Devenish does not quite agree with such rules as haircuts, no radios for Third and Fourth Formers, but does feel that the administration is trying its best to make compulsory chapel pleasant.

Mr. Devenish also feels that Greek should be taught and that a much more efficient art and music program should be developed at Lenox. He was also amazed at the lack of necessary books in the library and the dreadful shape of some of the dormitories.

All in all, Mr. Devenish will enjoy Lenox. He is a jolly chap, and he will offer many boys the young guidance which he possesses.

MR. THOMAS GRAESSER

Mr. Graesser (Lenox '64) goes through, what all new and often old teachers must face; the typical critical and praising comments passed on through the student body. Some say he's stern, makes people work too hard, or doesn't understand the Lenox students of this year as compared with his era. But as usual, the school gets under way, after summer gripes are dropped, and the opinions change from bad to good. **With Mr. Graesser's background, it is easy to see that he is a very capable master, both academically and athletically.** His academic background consists of four years at Lenox School, graduating in 1964 as a prefect and going to Hobart College, graduating in 1968. While at Hobart, he majored in English and minored in Biology. Athletically and otherwise, he participated for three years in varsity lacrosse, captain of the hockey club, plus playing soccer and being vice-president of his fraternity, Kappa Alpha.

Continued on Page 4, Col. 1

MR. JOHN FRIESMAN

Mr. Friesman graduated from Colorado College in Colorado Springs this past summer. He found out about Lenox from his roommate who had heard of schools in this area and recommended that he apply here.

Mr. Friesman is deeply concerned with progressive education and student freedom in the learning situation. He is here teaching English and Economics, a course which has not been offered since Mr. Temple left Lenox about three years ago. At Colorado, Mr. Friesman's major was Economics. **He is teaching it under a system different from the standard method by using a new series of books put**

Outreach Program Goes To London

We left for J.F.K. Airport from Lenox on July 31st, not knowing what to expect when we reached London, our destination. Upon arrival at London Airport, we were met by Peter Challen, a minister who was involved with the South London Industrial Mission, and a woman named Mrs. Bremner who was in charge of the place where we were to stay.

From the airport, we were taken to our base of operations, the Walworth district in London. It had been decided that we would live in the same environment as the children we were going to work with during the program.

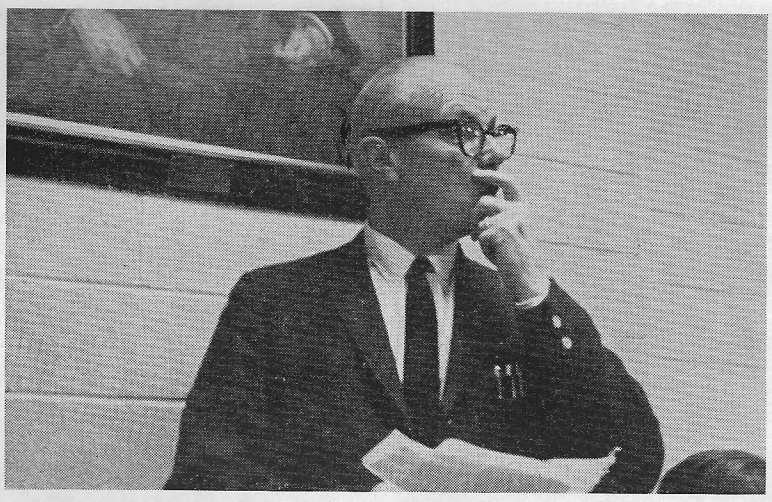

When we arrived at Walworth, most of us were shocked to find that the majority of the apartment houses were quite modern and middleclass. As it turned out, the problem was on the inside, within the families. Most of the fathers had jobs which took them away from home for long periods of time, most of them being truck-drivers. To add to this, the mothers worked during most of the day. This meant that if there were any children in the family, they were free to do as they pleased most of the time. If they did not want to go to school, they didn't. Our objective was to provide recreation for the children during the day.

The Walworth Summer Program was scheduled to last four weeks. We were there for three weeks, working within the program. Mr. David Blanchard, of the Lenox faculty, Tom Calhoun, Pat Gable, Russ Rietz, and I were the only high school students from the United States working in Walworth. There were two American college students, an exchange student, Charles Newton, and a girl named Anne Bryant. Anne was the one mainly responsible for getting the program started and organized. Michael Elliot, a vicar of St. Christopher's Church, and Derek Musk directed the program. There were many boys from Pembroke and various other English colleges as well as boys from Welbeck College and Sandhurst, two British military institutions.

The program started each morning at Pembroke House attached to St. Christopher's. It cost a shilling (12 cents) a day, which was paid by the children. The hours were from 10 A.M. until 4 P.M., during which time, we were allowed to take the kids to play games at the playgrounds, go to museums, or nearby parks.

The first week, it rained every day which resulted in mass hysteria, since the 130 kids couldn't go outdoors. The second and third

Head Views Opening Of Year

"Dr. Curry, what is this emphasis that you place on unity in the form and why is it emphasized to this degree?"

"I'm keen on what I've termed 'diversity within a unity', that is, freedom within organization. Flexibility must exist in both minorities and majorities, and there can be no real progress for the Sixth Form or for Lenox without this flexibility and unity. Separation in the form could lead to total disaster for everything Lenox stands for. I'm in favor of idealism and individualism, but not to the extent that would lead to the school's distruction. There must be gradual change, change without devastation, evolutionary change. I emphasize this only because it means progress for the school."

"Sir, could you elaborate on just what concrete benefits a unified form will bring—for both students and masters? Don't you think that the Honor Code was a considerable factor in last year's Sixth Form disunity?"

"I've elaborated on this before. I strongly feel that a unified form has a great chance at building something for the form and the school. Disunity does little other than destroy, while unity achieves an atmosphere of good will, high spirits, and gives most students a happier outlook on life at Lenox.

"Getting on to last year's Honor Code . . . granted, it certainly was a factor in the year's Sixth Form. This was mainly because it was a code tied to regulations. That combination of ethics and regulations led to the year's disunity.

To MacDuffie With Love

On Saturday the 28th of September, an able group of boys went to the able MacDuffie School for the first dance of the '68-'69 social season. Fielding a full team plus a few reserves, Lenox boys arrived and eventually sat down to a hearty meal of roast beef. The MacDuffie girls managed to equal Lenox in number, but somehow were much more talented dancers. The gathering ate and then proceeded to the dance hall. The theme of the dance was "Dancing in the Street" and the decorations consisted of 'No Parking before 9 A.M.' signs and black footprints on newspaper—it was very effective. Everyone enjoyed

Unity: The Quality Most Needed

Last year on June 2, I left school with very mixed emotions; glad because the year was over, yet very much disturbed by the fact that so much had gone wrong. I don't want to rehash every episode but the main problem was lack of unity. The sixth form was severely split on many subjects. The Honor Code being the main sore point of the year. But there were many others; lack of spirit and lack of responsibility, to name a few.

As last year, the main topic is the Honor Code. The sixth form has already had a meeting on this subject. If accepted the basic format of the Honor Code would be as follows: The Honor Code should, in no way be related to the basic disciplinary regulations of the school. It should deal only with the three factors of one's personal honor; lying, cheating, and stealing. A student would only be obligated to turn a fellow student in for these three offenses.

But in my opinion what goes into the Honor Code is not the main problem. Unity is the quality most needed. The Honor Code can be accepted or rejected, but it must be accepted or rejected by the whole form. If the form gets split into different factions like last year, its unity and leadership will diminish rapidly.

This year, as the Headmaster has said, is a year for looking ahead. There is an air of optimism in the school which, I am sure, will take Lenox a few steps forward.

M. C. G.

DC Adds Student Member

For the first time in the history of Lenox, there is a student representative on the Disciplinary Committee. This representative is the Senior Prefect or any other prefect which he appoints in his absence. The representative's duty is to sit in on all meetings of the D. C., and give opinions and suggestions where they are needed.

Since there is a student on the committee the students would be more inclined to feel that their punishments are more just, because it has been determined by the masters along with suggestions of the prefect.

This new system is applauded by the faculty and especially the D. C.

P. B. B.

Head . . .

Continued from Page 1

This year's Code, if adopted by the form, will be strategically different and hopefully better, in that the Honor and Rules will be separate from one another."

"Well, Sir, will it displease you if it appears imminent that this year's Sixth Form will refuse to adopt the Honor Code?"

"In the final analysis, it is the form's own decision as to whether or not it wishes to adopt the Honor Code. It will either go one way or the other. I will not be displeased if the code isn't accepted."

"One last question, Dr Curry. What is your opinion on Marijuana?"

"There has been no change in my opinion on pot. Leave it alone! It is an escape from reality, as are drugs in general."

Sunday, Sunday

This year, the school is witnessing a major change in the usually hectic Sunday schedule. For the past few years, the members of the student body who don't go to Temple in Pittsfield or St. Ann's Catholic Church in Lenox have been going to the 11:15 A.M. service at Trinity Church. This service ended around 12:15 and Sunday dinner would be served at 12:30.

Under the new system, the whole school is free from the end of breakfast to 5:00 except for those who are involved in Dramatics or some other commitment. The kitchen gives out box lunches at the end of breakfast which one can eat as he pleases. Since there is often a variety of things in a lunch bag, one's Sunday afternoon is tinctured with the scintilla of chance.

At 5:00, Evensong is held at Trinity Church, which is now the service attended by the school. The services have been going surprisingly well and the goal is to eventually do the entire service chorally.

For two Sundays while Rev. Whitman was away in Maine, members of the school have been taking over the service. Pat Gable spoke on the Outreach Program to Walworth Mission in London, the first week and Mr. David Blanchard showed slides and spoke on his leave of absence in Fort George, Canada the second week.

After this interlude, the school can get down to learning the service. Part of the Monday hymn sings are devoted to learning canticles which are picked up very quickly. The headmaster has expressed pleasure in the way things are going, and at present the outlook for Evensong as a standard arrangement is excellent.

For some time, one of the major gripes of the school has been the lack of free time. With the shift of Sunday services to the late afternoon, the entire day is available for homework, which seems to have a habit of being exceedingly more extensive on Sunday night than it was on Saturday morning. This is not to say that one is expected to study straight through from breakfast until church, but there is enough time for almost everything.

However, these eight or so hours can have an extremely deterring effect on those who do not use the time advantageously. If one sits around and actively does nothing all day except berate the school and wish that he were elsewhere, then the chance to make the most of the Administration's ordeal of trying to satisfy those under its tutelage is lost. All this brings is an increase in disunity which Lenox can do without this year. The student body is urged to take advantage of the Administration's reforms, even if they do not quite induce an instant Utopia.

gmc

St. Martin's Society

This year the St. Martin's Society has jumped off to a good start after only a few meetings. As in the past, the Society earns money and uses it to make contributions to community and welfare minded organizations, and to help cover the costs of any conferences that we may hold or that boys may wish to attend.

For the first time, refreshments have been served at home games and at the Saturday night movies, sponsored by the St. Martin's Society. The Society hopes that a conference can be held at Lenox this year. The topic and details of this conference are undecided as yet, but suggestions are coming in.

The turnout of the St. Martin's Society has been excellent. Meetings are held every Wednesday night and all are cordially invited.

Sports Rally Boosts Spirit

On Friday night, September 30, a violent demonstration and small riot took place in front of St. Martin's. This would probably be an outsider's impression if he did not know that the students were displaying their spirit in the season's first sports rally. As usual, hoarse screams were accompanied with the banging of wastebaskets, and a general aura of mad confusion. Spokesmen for each of the teams expressed their optimism in regard to this year's fall athletic program, and received wild applause for their words.

The mob finally broke up at 9:30, and all the participants headed back to their "respective dormitories." The clanging bell and the piercing shouts faded quickly, and the circle was left empty except for the shreaded remnants of a simulated Cranwell football player. The enthusiasm which was exemplified at the rally proved to be one impetus which aided the football team in their win over Cranwell on the following day.

FALL SPORTS OPEN

MILLBROOK BACK IS DOWNED AS LENOX CONQUERS 50-6.

Football Starts Strong

This year's Varsity Football Team, again under the guidance of coaches LaPointe and Hunt, is potentially the best in years. A major problem which must be overcome is that of learning to work together after coming from many varied athletic backgrounds. Another obstacle which must be overcome is that of injuries. Tom Calhoun, who was a returning letterman from last year's team broke his collarbone during early practice and Peter Shelsy, up from last year's JV, broke his wrist a few weeks later.

The first contest of the season against Cranwell resulted in a 20-0 victory for the Goldmen. Quarterback Dan Videtta and end Fred Kenady combined for the first touchdown via a 40 yard pass. Jim Sullivan capped a Lenox drive with a one yard dive for another six and David Plaisted returned a Cranwell fumble 90 yards for the last major score. A Videtta to Larsen pass netted the points after touchdown.

Captain Jim Sullivan, Jonathan Bosworth, Patrick Gable, Rodger Green, Bill Williams, Hank Wangeman and Jerry Way are returning seniors from last year's team. Returning juniors are Jody Haddow, Jim Hinson, and Tim Robinson.

Up from last year's lower teams are Roger Hoefer, Frank McCoy, David Plaisted, Cabell Bruce, Jeff Smith, Dudley Zinke, Bob Wilson, Leigh French, Howard Bad Hand, Walter Barber, Jim Couch, and Tiny Hood.

New boys Bill Bradley, Fred Kenady, Huck Larsen, Larry Morrison, Jim Newman, and Danny Videtta, are great contributions to this year's club.

The squad has shown some fine football so far this year, but much development is needed before it becomes a polished team.

WHY?

V Soccer Has Phlegmatic Start

THE MOUNTAIN COMES TO LENOX.

JV Football

The 1968-1969 Junior Varsity Football team could be one of the best the school has had in past years. With a little desire, this squad could have a winning season.

The team consists of many new boys who have the ability to become fine football players. These new additions to the JV team include tackles George Cleveland, Doug Paige, and Francis Calabro; ends Bill Bultman and Francis Huidekoper. In the backfield are quarterbacks George Morgan and Scott Hoffman, upback Chris Knott, tailbacks, Charlie Parker and swingback Mike Loomis. Many of these boys have played football at Lenox and have shown their ability to be quite strong.

There are also a number of boys who were on the team last year. This group includes linemen Bill Monk, Josh Reid, Russ Reitz, John Moynihan, and Floyd Ballesteros. Former backs who were members of the team last year include Ed Rossi and Doug Jacke. The preceding boys are tough on the field and will give the JV team a big boost this fall.

The JV football team is quite unique. Coaches Rogers and Fawcett do not try to produce just a professional team. They would like to see a well co-ordinated team which can at the same time have fun.

The Junior Varsity Football team opens its season on October 9th at Salisbury. With the fine coaching and a lot of hustle, the team should have a fine season.

JV Soccer

The J.V. Soccer Team, coached by Mr. Berry and Mr. Devenish, started off on the wrong foot this year when they lost to Berkshire 5-0. Our soccer team was unfortunately not ready to play the game, and as a result we were out hustled to the ball for most of the game. The team consists of Scott Ingram, Bill Boswell, Steve Shedd, Andy Krichels, Tom Sears, Matt Gottsegen, David White, Gus Schwab, Steve Kelsey, Marc Bauman, Fred Lavenberg, Les Ellison, Andy Davis, Steve Jeffrey, Niel Anderson, Steve Solley, Dan Dewey and Martin Raine.

The next game was with Hotchkiss. The game went the same way as the Berkshire game. Lenox again lacked hustle, but the team did seem to be working together more than the last game. Hotchkiss won the game 4-1 with our goal scored by Scott Ingram.

The 1968 soccer season began on September 5, with a meeting of all prospective players for varsity soccer. The next five days saw the team work hard to get into condition for the coming season.

By the following Thursday, September 12th, the boys who had attended early practice were in some semblance of shape, while the players just returning were stiff and sore. After some changes in the squad and some scrimmaging on the field, the "Gold" met Pittsfield High School at home for a controlled scrimmage. With a well organized team, Pittsfield managed to come out on top 2-1. Then, on Friday, September 20th, Lenox High School came down for a similar contest, and proved to be a young and inexperienced team as the Martins won with ease.

On the following Wednesday, September 25th, Varsity soccer opened its official season by defeating Winchester School 7-0. Jeff Gulick led the scoring with three goals, as the Lenox squad easily dominated the play.

The next game was at Berkshire on the following Saturday. Lenox took the field against a strong head wind. Even though Lenox had a period going with the wind, the two goals that Berkshire scored in the initial quarter stood firm as Lenox managed to score only one against the rivals. Opening the second half with the score 2-1, Berkshire rallied to a final score of 3-1, despite a good effort by Lenox to change this tally in the final minutes.

RECORD BREAKER KERR FINISHES FIRST AGAINST CRANWELL.

Both X-C Teams Set Good Pace

On Saturday, September 28, the Varsity Cross Country team opened its season against its cross town rival, Cranwell. Larry Kerr led the team to victory with a finishing time of 15:26. Following close behind was Mike Kent, who ran the course in 15:29. Cranwell took the third position, and Chris Higgins of Lenox placed fourth with a time of 15:39. Fifth place was taken by Bill Ryan in a time of 16:23. Cranwell took the sixth position, with Mike Benson, Rob Warren, and Keith Simpson following. The final score was Lenox 19, Cranwell 39.

The next week Varsity Cross-Country ran against Suffield. The team did extremely well, with our first three men breaking the course record. Larry Kerr, Michael Kent and Chris Higgins were the three recoid-breakers. Lenox beat Suffield by almost a perfect score of 17-48.

The team looks formidable and coaches Hackett and Graesser have a promising outlook for a good year.

The Lenox JV Cross Country team defeated the Cranwell JV team in their opening meet by a score of 26-34. The Lenox team, comprised of 9 boys, showed considerable running ability as they finished in places 2, 3, 4, 5, 7. Pack running, which coaches Hackett and Graesser have been stressing in practices, proved to be the winning factor in this meet.

The well balanced JV squad is comprised of Jeff Ballentine, Earl Englemann, David Lewis, Bill Green, Wilkes Stranch, Mark Apone, Ken Scott, Lee Heron, and Ed Griggs. On October 20th, the Lenox team was host to the Rockwood Varsity squad. As in the previous meet, pack running paid off as the Lenox constituents finished in the first seven places, and winning by a perfect score of 15-50.

The next Wednesday, the team bussed down to Hotchkiss where they were defeated in a very rough game. Things picked up, however, as the team played Windsor Mountain on the home field and tied 2-2 the next Saturday.

The team changes from day to day, but at present there are twenty on the squad. On the line are: Captain Steve Wilson, Gareth Lewis, Jeff Gulick, Bill Varian and David Laube. Other forwards are: Jeff Lewis, David Voorhees, Kim Sanders, Neal Anderson, Kent Paul, and Ken Lo. Halfbacks are Bob DuBuisson, Dave Clarke and Bob Gulick, plus Rick Nicholaev and Terry Cummings. Tom Ebitz and Louis Johnson are the fullbacks, with Allen Southergill supporting. Last, but by no means least, Paul Blatz and Elliot Potter tend the goal in a most proficient manner.

Lenox has the potential for a good season, based on spirit and drive. While there are no really polished players, except Steve Wilson, the squad sticks together and the prospects of a winning season are in the offing. Coaches Paterson and Braim are looking forward to an exceedingly successful season of soccer.

Outreach . . .

Continued from Page 1

weeks went much smoother. It rarely rained and the weather was perfect. During this time, several bus trips were taken by the children and their leaders. One trip was to the seaside on the English Channel and the other was to Bushey Park and Hampton Court. Both trips were highly successful.

The time passed so quickly that our last day working with the program came sooner than anyone expected. That night, a party was given for us by many of the parents whose children were involved with the program. The following day, a lot of the children saw us off.

In looking back, I truly feel that because of our work, the summer for most of the youngsters in Walworth was one of the best they have ever had. This makes me feel as though I really did something worthwhile by spending a few weeks with those children.

From August 23rd until September 1st, Pat, Tom, Russ, Mr. Blanchard and I toured Wales and part of Scotland. The scenery was inexpressible. It was extremely enlightening to climb mountains, camp out, and visit many small towns and villages.

On September first, we left Prestwick Airport around two o'clock. We arrived at J.F.K. late in the afternoon.

I can say that I feel a tremendous sense of fulfillment and accomplishment after having worked with the program. I also feel lucky to have been able to work with such fine men as Michael Elliot and Derek Musk. I feel that our program was a success and we all hope that the youngsters we worked with will eventually lead useful lives as a result from the boost it may have given them.

by Doug Paige

Head Canonized

On Sunday, September 15, The Rev. Robert L. Curry was installed as honorary canon at Christ Church Cathedral in Springfield, Mass. The installment was performed by the Very Rev. Malcolm W. Eckel. Also installed was the Rev. Maurice A. Kidder, vicar of All Saints Church in South Hadley. They were elected to the post by the Diocesan Convention.

The duties of a canon are to perform certain Liturgical duties in services at the Cathedral and assists and advises the Dean on Church matters.

Graesser . . .

Continued from Page 1

In drawing a comparison between his four years at Lenox and the present status of the school, Mr. Graesser commented on many points. He feels that the chapel services offer more variety than in the past and that the new Sunday program is excellent. He also stated that the school appears much more liberal and that in the classroom, students are much more capable of doing good work; more than is being asked of them. For this reason, he feels that he would rather give too much work than too little.

This year, Mr. Graesser will be teaching English and assisting in coaching both cross-country teams as well as lacrosse.

vision. His musical interests are basically classical, but he occasionally strays to acid rock. On the political scene, Mr. Hunt is a Nixon backer and knows little about Agnew. He thinks that Nixon's choice of running mate was poor. According to Mr. Hunt, we should remain in Vietnam, as we "have to stop them somewhere", but at the same time step up the war.

Although Mr. Hunt didn't have much to say concerning the football team, he did express his feeling that the backfield is stronger this year, and the line's competence has weakened somewhat.

Friesman . . .

out by Prentiss-Hall. To elucidate on the difference between the two systems would be a long and lengthy process, so let it just be said that Lenox is fortunate in having this new system being taught here.

Mr. Friesman's basic philosophy is a quotation of Justice Oliver Wendell Holmes: Life is action and passion: I think it is required of a man that he should share the action and passion of his time at peril of being judged not to have lived.

Mr. Friesman seems to be finding Lenox a learning experience just as the students are.
